DETAILED ACTION

Allowable Subject Matter

1. Applicant's arguments, see Paper #16: page 22, lines 2-6, filed 15 April 2004, with respect to claim 68 have been fully considered and are persuasive. The objection to claim 68 has been withdrawn.

2. The following is an examiner's statement of reasons for allowance:

As noted previously by Applicant (Paper #12, page 21, line 12 - page 22, line 16, filed 17 February 2004), claims 55 & 65-67 (and dependent claims 56-64), the art of record does not teach or suggest the recited arrangement of converting the amplitude of a high-frequency component on the basis of information derived from a gradation conversion curve in conjunction with the generation of a high-frequency component of an image subject to gradation conversion and the subsequent addition of the amplitude-converted high-frequency component to the image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
